	All three maps Laser Print on Pretex-Papier (waterproof but not tearproof)
Terrain:	<p>BRL Middle – Hilly terrain, with variable runnability. This area (Lindenhof) has been mapped for the first time for this competition. It represents a typical terrain of the upper Bavarian forest, switching between open forest areas filled with numerous granite rock formations and some areas of dense young forest with low runnability. There is a dense network of path available. The numerous rock formations in this forest promise a technically challenging race. A real pleasure for orienteers.</p> <p>DM Sprint/Sprint-Relay: Urban terrain. Fast running tracks through the narrow labyrinthine streets will require maximal attention. Shoes with Dobb Spikes are forbidden.</p> <p>BRL Lang – Typical Bavarian Jura Hills, characterized by a deep valley, extensive beach tree forest, typical jurassic limestone formations and in some parts with low runnability due to densely growing young beach trees.</p>
Embargoed Area:	Embargoed areas are published at www.orientierungslauf.de/3/6
Control System:	German Championship Sprint: SPORTident® (BSx7, Air+ enabled) Active cards (SIAC) are provided to all the starters in the German Championship categories for the entire weekend at organiser cost if a personal SIAC is not notified at the moment of inscription. The usage of SIAC is mandatory by the Sprint Relay. For the other competitions, all SI-cards are allowed.
